## MISSISSIPPI ASSOCIATION OF NURSE ANESTHETISTS, INC.

---

Dear Candidate,

As you well know, many large organizations have struggled over the last few years to maintain and grow membership. There are many strategies out there at the moment combating these problems. MANA leadership has decided to ask each candidate three controversial questions and ask that clear, concise answers be provided. These answers will be posted on our member's only portion of our website for all members to view. We feel as if this could be another method to increase voter participation, decrease membership apathy, and show the true AANA connections our state benefits from each and every year. We will look for feedback from our members as a base for nominations. We feel as if this tactic has the potential to empower each member and show that each member DOES have a voice! The questions are as follows:

1. What would be your tactic on a nationwide stance regarding the use of AA's?
2. How will you assure members that the AANA and NBCRNA relationship regarding the new CPC program will stay positive?
3. What is your stance with regard to the flawed implementation of resolution 2014-2?

George "Sandy" Weathers  
MANA President
